Offset Brake Ducts that Work ...ARbodies Exclusive!

Molded to fit the Compound Shape of Plastic Noses. With the New Narrower Noses most Brake Naca Ducts point your brake hose toward radiator duct work and ground. This causes problems running the brake duct hoses without kinking and blocking Air Flow. Not Good! These Specially designed Offset Brake Ducts fix these problems and work great with all ABC noses and most others as well. They help your hose run level and parallel to the front clip making it easier to run it without kinking. Thermoformed from Black HDPE for fit and durability, made in Left and Right designs for better fit.

New Adjustable Cowl Air Induction Turn Down

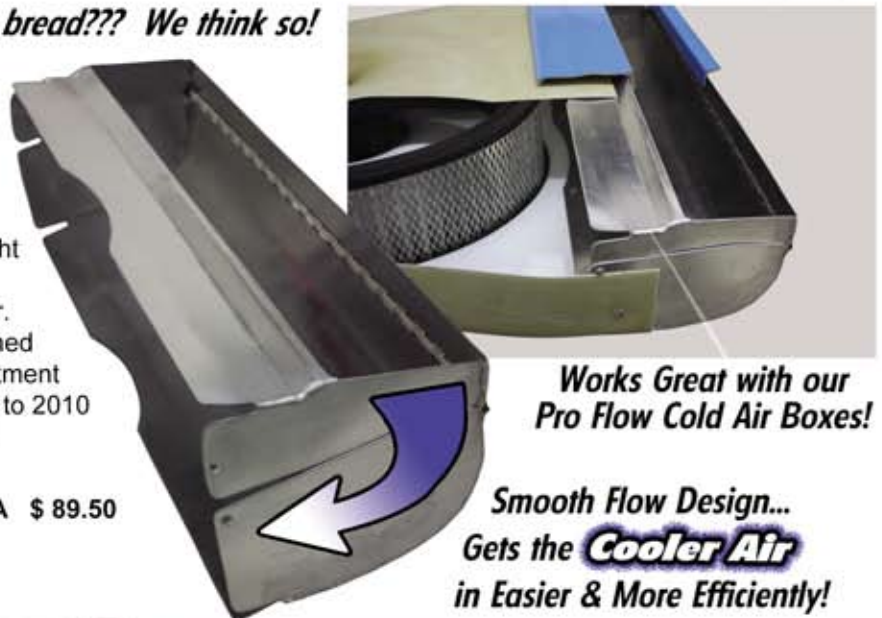

Another ARbodies Exclusive!

WOW! is this the best thing since sliced bread??? We think so!

ARbodies has another Industry 1st with our New Cowl Air Induction Turn Down. This is an EZ solution to what is normally a very hard, time consuming and tedious job. This turn down gets the cool cowl air into your cold air box efficiently without disruption of the air flow. This new lightweight aluminum, tig welded cowl turn down does a great job of that plus it can be installed in less than 1 hour. Manufactured from lightweight aluminum it is designed with a built in hinge system that allows for EZ adjustment from 3" to 4" filter heights. Works great on our 2004 to 2010 ABC Bodies and in many other applications as well.
